

TREBBIANO 2022

Carl and his wife Carla established 'Down to Earth', a grape growing viticulture company in Margaret River. It was here the team developed, managed and acquired a large collection of vineyards across Western Australia. The viticulture team pushed the limits to achieve the best quality produce for each site and season. But, they began to grow envious, believing some of the parcels of fruit were too good to give away. So, they decided to start turning our best parcels into quality wines to enjoy the fruits of their labour.

TASTING NOTE

Bouquet: This classical Italian varietal displays a subtle bouquet of lemon and lime sherbet, green pear, bubble gum and nasturtium flowers.

Palate: The palate is finely textured to begin, with layers and the structure forming through the mid palate which is soft and approachable with a minerality on the finish. The palate displays Granny Smith apples, green pear, lemon with hints of honey, great for Asian and Mediterranean dining.
